20H Value of goods where there is a change in the goods

- (1) Where regulation 20G applies, the value of the goods for the purposes of import duty is to be determined by reference to the quantity of the goods declared for the free zone procedure —
 - (a) which, in accordance with a notice published by the Treasury, are to be treated as present in the processed goods; and
 - (b) for which import duty is incurred.
- (2) The Treasury must publish a notice specifying the methods for determining the matters referred to in paragraph (1) and may make different provision for different cases.⁷⁷

20I Consequences of determination of liability under regulation 20G

- (1) Paragraph (2) applies where —
 - (a) a liability to import duty is to be determined in accordance with regulation 20G(5);
 - (b) any processing in relation to the goods while they are subject to a free zone procedure was an authorised use under regulation 35 at the time that the goods were released to a free zone procedure; and
 - (c) at the time that the goods were released to a free zone procedure an application for authorisation to declare goods for an authorised use procedure by the person authorised to declare the goods for a free zone procedure would not have been prohibited by regulation 92(1) or (2) of the Customs (Import Duty) Regulations 2019.
- (2) Where this paragraph applies, the rate of import duty applicable to the goods is to be such rate as would have been applicable to those goods if they had been declared for an authorised use procedure and the declaration had been accepted by the Treasury.⁷⁸

20J Usual forms of handling –changes in nature of goods

- (1) Paragraph (2) applies where —
 - (a) a declaration (“the first declaration”) of goods for a free zone procedure has been made;

 - (ii) specified in a notice published by the Treasury as an operation constituting a usual form of handling of goods;

- (d) a further declaration (“the second declaration”) of goods for a different Customs procedure is made; and
 - (e) a liability to import duty is incurred in respect of the goods by virtue of making the second declaration.
- (2) Where this paragraph applies the declarant may elect in the second declaration that the liability be determined by reference to the goods as they stood when the first declaration was made.⁷⁹

CHAPTER 2 – INWARD PROCESSING PROCEDURE

21 Eligibility – inward processing procedure

The Treasury may grant an application for authorisation to declare goods for an inward processing procedure only if an officer is satisfied that –

- (a) if the goods were declared for the procedure either –
 - (i) it would not be economically viable, following processing of the goods in accordance with the authorisation, to restore the goods to their condition at the time of the declaration; or
 - (ii) liability for import duty would be determined by virtue of regulation 25 by reference to the goods as they stood when the declaration was made;
- (b) use of the procedure could not result in circumvention of –
 - (i) a quota to which the goods are subject for the purposes of section 11 of the Act; or
 - (ii) any provisions made by or under section 17 of the Act for determining the place of origin of the goods for the purposes of Part 1 of the Act; and
- (c) where the processing to be carried out is the use of production accessories, the production accessories are not –
 - (i) fuels or energy sources, other than those needed for the testing of processed goods or for the detection of faults in goods declared for the procedure with need repair;
 - (ii) lubricants, other than those needed for the testing, adjustment or withdrawal of processed goods; or
 - (iii) equipment and tools.

22 Economic condition – inward processing procedure

- (1) Where an application for authorisation to declare goods for an inward processing procedure is a case of a description specified in a notice published by the Treasury, an authorisation may be granted only if –
- (a) an officer is satisfied, on the basis of an examination of the available evidence, that the essential interests of producers of goods in the

Island or United Kingdom would not be adversely affected by the granting of the authorisation; or

- (b) paragraph (2) applies.
- (2) This paragraph applies where –
- (a) the Treasury is not aware of any evidence that the essential interests of producers of goods in the Island or United Kingdom would be adversely affected by an authorisation to declare the goods for an inward processing procedure; and
 - (b) the authorisation concerns an operation which is not of a type specified in a notice published by the Treasury.

23 Authorisation to declare goods for an inward processing procedure

- (1) An approval notification issued in relation to an authorisation to declare goods for an inward processing procedure must specify –
- (a) the goods, or type of goods, to which the authorisation applies;⁸⁰
 - (b) the processing to which the goods are to be subject (“specified processing”); and
 - (c) the date by which the procedure must be discharged (“the discharge date”).
- (2) Where –
- (a) goods (“intended imported goods”) are to be imported into the Island or Great Britain in order to be processed there;⁸¹
 - (b) the intended imported goods are to be declared for an inward processing procedure;
 - (c) equivalent domestic goods²⁶ are to be subject to the specified processing in place of the intended imported goods; and
 - (d) the goods resulting from the processing are exported or removed to Northern Ireland before the intended imported goods are imported,⁸²

the approval notification issued in relation to an authorisation to declare the intended imported goods for an inward processing procedure must specify the period within which the intended imported goods are to be declared.

- (3) The period specified under paragraph (2) must not be longer than 6 months beginning with the date after the date of any acceptance of such export declaration as may be provided for under section 35(3)(a) of the Act for the goods resulting from the processing or, in the case of a removal

²⁶ The meaning of “equivalent domestic goods” is given in paragraph 23(2) of Schedule 2 to the Act.

from the Island to Northern Ireland, the date the goods left the Island in the course of their removal to Northern Ireland.⁸³

- (4) The period specified under paragraph (2) may be extended at the request of the authorised person, but the amended authorisation must not permit a declaration to be made more than 12 months after the date of any acceptance of an export declaration referred to in paragraph (3) or, in the case of a removal from the Island to Northern Ireland, the amended authorisation must not permit that period to be longer than 12 months beginning with the date the goods left the Island in the course of their removal to Northern Ireland.⁸⁴
- (5) In cases where paragraph (2) does not apply, an approval notification issued in relation to an authorisation to declare goods for an inward processing procedure may specify that goods released to the procedure, and processed goods resulting from processing of those goods, are to be treated for the purposes of Part 1 of the Act as if, on the discharge date, the goods had been declared for the free-circulation procedure and the Treasury had accepted that declaration if, on that date —
 - (a) the goods have not been declared for another Part 1 procedure;
 - (b) the goods have not been exported or removed to Northern Ireland; and⁸⁵
 - (c) the applicant has requested that the goods are to be so treated.
- (6) The Treasury must not make the specification referred to in paragraph (5) where, under any enactment, the goods are subject to a prohibition from, or restriction on, declaring them for the free-circulation procedure.
- (7) [Revoked]⁸⁶

 - (c) the holder of the procedure does not export the goods or cause them to be exported where —
 - (i) the export is to a country or territory with whose government Her Majesty's government in the United Kingdom has made arrangements which contain provision for the rate of import duty applicable to goods, or any description of goods, originating from the country or territory to be lower than the applicable rate in the customs tariff²⁷ in its standard form, within the meaning given in section 9(2) of the Act;
 - (ii) a United Kingdom proof of origin issued under any provision made under section 9 of the Act in relation to the goods has been obtained for the purpose of claiming the lower rate when the goods are imported into the country or territory referred to in paragraph (i); and
